About us

We specialise in providing our clients with superior quality Cleaning Products that will enhance your cleaning experience. With over 200+ products and a manufacturing plant to accommodate your needs, N.V Chemicals focuses on being a one stop shop for major wholesalers and retailers around Australia and across the globe.

Why N.V Chemicals and how do we differentiate ourselves?

The reason why cleaning products can be a costly exercise for many buyers is because they purchase a wide range of products. Even though diversification is great, a lot of buyers can minimise their costs by viewing the NV range and identifying that our products can be used for multi-purpose tasks. Beyond this, NV Chemicals will provide you with the following benefits:

- Australian Made
- Ability to manufacture our range of products to meet your specifications
- Minimal turnaround time for products to be prepared
- Labelling our product range with 'Your Company Name & Logo' where required
- Phenomenal Customer Service and support

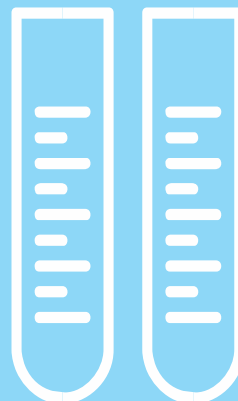

Full replacement warranty on any defective product

What makes N.V Chemicals successful?

N.V Chemicals prides itself on being a tailored cleaning solution company. Basically this means that we will work with you to determine the best possible outcome of your cleaning product requirements and focus on minimising your expenses.

We realise that every industry is different with different requirements, so we can tailor any solution to meet your needs.
